Included will be law movies. When I work with someone on a case I recommend that they watch what I'll include because there's very useful information presented.

Re traffic issues, I always insist the people I work with watch "A Few Good Men". Why? Because the so-called "traffic stop" is a CODE RED and that movie contains a lot of valuable information a Pro Per can use to defend themselves.

The other movies provide outstanding examples of other legal principles. I refer to them often when speaking with someone about law.

The content of the flash drive will exceed 6 Gigs. All documents are in .pdf format.

The cost is \$125 cash + \$5 postage. Upon receipt of payment the item will be sent within 48 hours and a tracking number will be provided. Holidays will throw off the 48 hour time frame. You will be provided notice when I return from the post office that the item is sent.

If you're interested I'm willing to prepare a palm or hard drive containing enough information to start your own educational business or service.
